Inspection Violations

No violations cited.

Overall Inspection Comments

Notes:

- 1. This establishment is an 'add on' for a Permitted Commissary of Creative Cookery. Currently, the commissary in in good standings with the St. Louis County Department of Public Health. The add on establishment is clear to operate and will be turned over to the South County Environmental Inspector to check for operations compliance.
2. The plan reviewer sent an opening welcome packet that contained information on Hepatitis A immunization records, Employee Health Policy, Summary Sheet for Immunization and Health Policy and Required Food Manager Certification.
3. This establishment has passed the plan review inspection and is approved to operate. The Owner / Operator must contact the South County Inspector within ten (10) days at 314-615-4027 to arrange for a sanitation inspection that should occur 30 days from today's date. This 30 day inspection from Environmental Health Specialist/Representative will be conducted for food safety, record keeping, and listed violations. Noncompliance with any of these could subject your establishment to closure.
4. At this time, The South County Office does have approval from Plan Review to issue a Health Permit.
