Hello,

Thank you for your application to register your pet food/specialty pet food products in Minnesota. I have reviewed the product label(s), and the registration status is shown on the attached *Product Registration Summary*.

- Products marked "Accepted" are accepted for registration through June 30, 2023.
- Products marked "Registered with Conditions" are accepted for registration through June 30, 2023, but the revisions indicated on the individual *Label Review Report* must be made before the labels are reprinted. Please indicate the date of the next printing on the *Product Registration Summary*, and submit the revised label(s) prior to distribution.
- Products marked "Denied" are denied registration because the labeling is not in compliance with the Minnesota Commercial Feed Law, Commercial Animal Feed Rules, and/or Commercial Pet Food Rules. These documents can be found on our website: www.mda.state.mn.us/licensing/feed. The specific violations are indicated on the individual *Label Review Report*. **These products will be accepted for registration when correctly revised labels are received.** Please indicate on the *Product Registration Summary* when you expect to submit revised labels.
- Products marked "Discontinued" must be removed from distribution by June 30, 2023. Products found in distribution after this date may be subject to further enforcement action.

For products that are either Registered with Conditions or Denied, an electronic or written response is expected in this office within **thirty (30) days** from the date of this letter. **Please include the completed *Product Registration Summary* with your response.** If you have additional questions, please feel free to contact me.

Sincerely,

Kelsi Brown
