Announced Audit

AUDIT EXECUTIVE SUMMARY:

Burlington Grain and Produce Company, LLC. is a popcorn packer in Flora, IN. The packing facility is 12,300 sq. ft. and operates year-round with five workers at peak season. The corn is received in enclosed semi trailers where it's belt fed into a hopper, transferred on a belt to a shaker table, de-husker, manually sorted onto a dry conveyor and trimmed with saw blades for a uniform size. Product is visually inspected and dumped into a plastic bag inside a bulk bin where it's moved into dry storage until final packing. Product is packed per order where it's manually aligned on a belt, mechanically bagged, manually placed into designated packaging, and best by date is applied. Final packaged product is palletized and dry stored until final shipment. The facility utilizes municipal water for hand washing and cleaning, no product water contact, ice, compressed air or gases used on the product. No allergens are handled or stored. The audit application was confirmed at the time of the audit.
